Ebsar Hoxha has been part of our team in the **JAVA Department**, where he has held the internship position. Throughout the one-month period of working with us during November 2021, we have been surprised by the high level of professionalism and responsibility that he displayed all along.

Throughout this period, Ebsar has paid attention to the responsibilities delegated to him, the details and requirements of our clients, while the communication and collaboration skills with the rest of the team have been at the highest level.

As the CEO of ROITIV Group LTD, with high responsibility and on behalf of the company I lead, I strongly recommend Ebsar Hoxha, as he will be an added value for your company, and above all, since he already gained experience at ROITIV, he is fully professionally ready to help you achieve your goals as a company.

If you need more information, do not hesitate to contact me.

Best regards,

Arb Abdyli
